

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Bruce Macnabb
DOCKET NO.: 03-24648.001-R-1
PARCEL NO.: 14-18-324-030-0000

The parties of record before the Property Tax Appeal Board are Bruce Macnabb, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property consists of a 110-year old, one and one-half story frame dwelling containing 1,204 square feet of living area with a full, finished basement and central air conditioning.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties. On the appellant's map, three of the comparables are located near the subject, and one is located approximately 0.8 mile from the subject. The comparables are one and one-half story frame dwellings that are 95 to 100 years old. Each of the comparables has an unfinished basement, and one has central air conditioning. Information on garages was not disclosed. The comparables contain 1,377 to 1,497 square feet of living area and have improvement assessments of \$20.88 to \$21.55 per square foot. The subject property has an improvement assessment of \$26.41 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing four suggested comparable properties that are also located near the subject. The comparable properties consist of one and one-half

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	3,976
IMPR.:	\$	31,802
TOTAL:	\$	35,778

Subject only to the State multiplier as applicable.

story frame dwellings that are 97 to 115 years old. Three of the comparables have full, unfinished basements, and one has a full, finished basement. Two comparables have a garage, either two-car or two and one-half car. The dwellings contain 1,008 to 1,164 square feet of living area and have improvement assessments of \$26.52 to \$27.34 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of eight equity comparables. The appellant's comparable four differed in location from the subject and received reduced weight in the Board's analysis. The appellant's comparables one, two, and three and the board of review's comparables were all similar to the subject in location, age, and physical characteristics. These seven comparables had improvement assessments of \$20.88 to \$27.34 per square foot and support the subject's improvement assessment of \$26.41 per square foot. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is supported by the most comparable properties contained in the record and a reduction in the subject's assessment is not warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
